Experience

Front-end Developer

Rubel Creative, Eezy.com • March 2015 — Present

- Develop and maintain the front-end of multiple high-traffic web properties (in *Ruby on Rails* and *WordPress* environments) with emphasis on responsiveness, cross-browser compatibility, and usability.
- Collaborate with Product Owner and Project Manager to implement features, set up A/B tests and perform UI improvements.
- Advocate best practices and ensure implementation of the best possible user experience.

Freelance Design and Development

Orange County, CA • January 2008 - March 2015

- Designed and built WordPress sites for a variety of clients with an emphasis on clear architecture and optimal user experience.

UX/UI Designer & Co-founder

5minutes.to, London, UK • May 2011 — August 2013

- Assisted with user research and identified usability problems for a web hosting and web design platform.
- Designed and built the pre-launch website that interfaced with *WHMCS* web hosting and billing solution.

Graphic Designer

CDS Office Pro, Orange County, CA • 2007 – May 2011

- Designed and developed a variety of in-house marketing collateral for both web and print.

Projects

MyCSSUndies

<https://github.com/JoeyDoey/mycssundies>

- Developed MyCSSUndies, a lightweight but solid CSS foundation that allows for rapid, in-code prototyping of responsive websites. While not meant to be a full-fledged framework, it is a viable jumping-off point for production-ready, responsive websites.

Key WordPress Functions

<http://wpnom.com>

- Wrote *Key WordPress Functions*, a short ebook that attempts to simplify the repetitive WordPress theme development process by pointing out the most used features, functions and filters.

Education

California State University, Fullerton

- BFA in Graphic Design, May 2008

Skills

Software and Tools

- HTML, CSS (Sass), JavaScript, Ruby on Rails, PHP (WordPress), Git (version control)
- Sublime Text 3, Terminal, BrowserStack, Adobe Creative Suite
